SUMMARY

As a graduate of the Computer and Network Engineering Vocational School and currently enrolled in the Bachelor of Information Engineering program, focusing on network hardware and software, I have experience working on various networks in office and educational settings. I adhere to three key principles to enhance work efficiency: time management, effective communication, and compliance with regulations. Additionally, I continuously strive to enhance my IT skills, particularly in programming.

PROFESSIONAL EXPERIENCE

Network Technician   January 2020 - To 2021

- Install and set up network devices like routers, switches, access points, and servers. Develop a network design tailored to the school's requirements, encompassing network topology, hardware selection, and ensuring the network can support the necessary number of users and services like internet access, intranet, and school information systems.

Computer Laboratory Assistant   February 2021 - May 2024

- Perform hardware maintenance by conducting regular inspections on computers, printers, scanners, and other network devices. Manage assets by creating an inventory of all hardware and software in the laboratory. Conduct periodic checks to verify the presence of assets.

Efficient Subject Educator   July 2021 - May 2024

- Responsible for instructing TKJ subjects, covering fundamental computer networks to programming, overseeing student projects, and enhancing students' talents, interests, and skills.

EDUCATION   September 2022 - Present

STMIK YMI Tegal
Technology Informatics

SUPPLEMENTARY DETAILS

- **Technical Skills: Computer networks, databases, programming, operating systems (hardware and software).**
- **Languages: Indonesian, Javanese.**
- **Certifications: MikroTik Certified Network Associate (MTCNA), Junior Web Developer, Junior Network Administrator, Office Competency Certificate, IT Skill Laravel Pijar Camp.**
- **Awards/Activities: Best graduate majoring in computers and networks, best graduate in the field of humanities, and active in organizational fields at school and beyond.**
